SCS Pactor Modems Homeland Security and Emergency Services Organizations Discount Policy

Farallon Electronics has instituted a Homeland Security and Emergency Services initiative to outfit and support PACTOR and packet mode modems for mission critical, very long-range wireless data communications via UHF, VHF, and HF radio.

Farallon offers a discounted pricing structure to qualified groups and individuals looking to purchase SCS PACTOR modems and accessories. To be eligible for the discount the buyer must be:

- Current employee of a federal, state or local government agency that is involved in communications.
- Current participating member of an emergency service organization such as ARES or MARS.
- Order must be placed directly with Farallon Electronics.

The discounts from published retail prices are:

Pactor Mode Modems	10%
Pactor III License	10%
Packet Radio DSP Modules	10%
Cables and Accessories	20%

To qualify and receive the discounted pricing, you must sign and return a Homeland Security / Emergency Service Affidavit confirming the purchasing group or individual as a qualified participant in this program.

A signed affidavit will be required prior to an order being processed.

SCS PACTOR mode modems are the recognized industry standard supported by a wide range of land based and maritime infrastructures. For more information, please contact:
