Adjustment to Above Table

Good news, fellow IMN'ers.. NCS Otis (KM7SM) convinced his local power company that they had a QRN-causing problem in their grid near his QTH. They have corrected that situation and Otis is back on the air as IMN Sunday NCS.

Amateur Radio Field Day 06/26 – 06/27

It was kind of a tough go for all Field Day stations in the West this year. At your editors local FD station, the host field is owned by a farmer who is also a ham. So we decommissioned the expensive stuff that normally resides in ham shacks and left most of our antenna farm intact on site. We'll wait for cooler weather to bring that down.

Bull Sheet: Sorry, no bull this month.

Artwork of the Month

Your attention is invited to the ingenuity certain hams will resort to – and the attention to detail that they employ – when choosing to create equipment for certain circumstances.
