Good Band Conditions Return

It's easy to forget how tough it was to hear other IMN'ers during the winter months. Enjoy it (including lightning QRN) during the summer and let's hope the grand opening of Sunspot Cycle 25 is about to take place!

But Are You hearing the Carrier on 3572 Khz?

A somewhat mysterious steady carrier appears each evening (at least here at your editor's QTH). But it's not there in the morning. So far it has not been strong enough to cause a disruption to IMN. Hmm...

Now It's Hamfest Time

Your editor's local Club, the "Kootenai Amateur Radio Society" (KARS for short) will be holding their annual Hamfest on Saturday 08/07 – at the same farmer's field where we had Field Day. We thought it would be a good idea to be outside back in March when we started planning things. Now we note that there will be a substantial heat and smoke load. Will report next month about whether or not attendees resembled smoked hams after a day of bargains.

Bull Sheet: Sorry, no bull this month.
