Were You hearing the Carrier on 3572 Khz?

Guess it's gone. Either your editor's ear was haywire or the radiator has now "left". But be aware, digital stations are creeping closer and closer to "our" frequency.

Now It's Hamfest Time

The local Hamfest went very well. August 7 was somewhat cooler than earlier in the month and smoke wasn't bad. The surprise was that the County decided to close certain roads (which happened to be routes to the Hamfest) on short notice. As readers might agree – it's either winter or road repair time.

The next event for readers in the northern ID/eastern WA area is the "Spokane Hamfest" aka the ARRL Washington State Amateur Radio Convention is scheduled for Saturday 09/25 at their usual location, University High School in Spokane Valley, WA. Google "Spokane Hamfest 2021" for complete details.

Bull Sheet: Yes we have Bull!

The following is a report submitted by IMNer Otis (KM7SM)

Special Event Station K7B/SJ

On August 10 the American Legion Post 113 Radio Club N7LGN of Meridian Idaho held a Special Event Station at the Nampa Idaho airport. The occasion was the arrival of the B17 Flying Fortress "Sentimental Journey".

IMNers Jim (K7JV) and Otis (KM7SM) assisted the club with CW operations. They were also joined by Don KA7T which completed a trifecta of CW brass pounders. The station was in the shade, under the wing of the aircraft. Jim also provided his personal rig which is a wonderful Maestro remotely connected to his FLEX Radio at his home QTH. The keys used were an Iambic paddle and a J37 Leg Clamp Key.

It was a fun day enjoyed by all in the presence of a great piece of our country's history.

(Editor's Note": Explanation of the choice of special event station call K7B/SJ... The "B" following K7 is for B17, or if you use your imagination the 7B is a juxta positioning of B17. The /SJ is for the name of the aircraft, "Sentimental Journey".)
