On Standard Time is Here and Band has Gone (?)

Fellow IMN'ers,

At this time of the year, pretty much every year, “our” band goes to heck. Your editor participates in a voice net at the top of 75 meters at 0030Z and they are often wiped out by ‘band went dead’. Same problem for us down in the REAL 80M segment at 0245Z. Except when there are contests, and the band is just goofy with people from far away who are invading “our” band. Criminy! Just stick with us for a couple months and things will be back to (?) normal!

Bull Sheet: No Bull this month (sorry)

Some Free Humor (provided by the editor)

Comprehending Engineers - Take One

Two engineering students were walking across campus when one said, “Where did you get such a great bike?”

The second engineer replied, “Well, I was walking along yesterday

minding my own business when a beautiful woman rode up on this bike. She threw the bike to the ground, took off all her clothes and said, "Take what you want."

The second engineer nodded approvingly, "Good choice; the clothes probably wouldn't have fit."

Comprehending Engineers-Take Six

Three engineering students were gathered discussing the possible designers of the human body.

One said, "It was a mechanical engineer. Just look at all the joints."

Another said, "No, it was an electrical engineer. The nervous system has many thousands of electrical connections."

The last said, "Actually it was a civil engineer. Who else would run a toxic waste pipeline through a recreational area?"
